DATACOM DIGITAL TRANSFORMATION

INTERNET OF THINGS

Bringing together the right devices, platforms & people to create groundbreaking IoT solutions

Let us show you how to transform your business and create competitive advantage with IoT

Everyone is talking about the Internet of Things, but not many businesses are successfully deploying solutions to market. Our IoT team has real-world experience building quality solutions that drive value and competitive advantage.

Contact us today to find out how we can help you.

Key Benefits of the Internet of Things:

- Get started quickly with preconfigured solutions and frameworks for rapid development

- Supports a massive range of devices and protocols out of the box

- Built-in tools to easily analyse and visualize your data in the office or the field

- Built on the Cloud to quickly and easily scale up and down with your needs... from one device to millions!

- Built-in security to keep your devices and data safe

- Integrate with your existing systems and applications

More than just smart devices

We are able to provide rapid end-to-end IoT solutions, using a framework of prebuilt tools that can be quickly deployed and customised to suit almost any IoT requirement.

The Skills & Experience
Work with New Zealand's leading IT solutions provider and harness our experience delivering reliable IoT solutions to real NZ enterprises

Ruggedized Hardware
From farms to factories, many IoT solutions require proven devices that can last for years in tough conditions

Dedicated Wireless Networks
We can connect to devices almost anywhere in the world using a mix of standard or specialist low-power networks for battery-driven devices

### A Scalable Cloud IoT Platform
We build scalable, rapid and reliable solutions using a prebuilt set of IoT software tools on the cloud

Actionable Insights
Our BI & analytics dashboards are a core part of our solutions, designed to deliver actionable insights that allow you to run a smarter, leaner and more competitive business

The Datacom Difference

With Datacom, you can hold one partner accountable for your entire project. In addition to our IoT team, we have expert Software Build and Management teams able to support the entire lifecycle of your applications.

OUR SOLUTIONS ARE:

END-TO-END

TAILORED TO CUSTOMER NEEDS

FAST TO BUILD

SECURE, SCALABLE AND PRACTICAL

INTEGRATED WITH EXISTING INFRASTRUCTURE

Datacom is one of Asia Pacific's leading locally-owned IT service providers. With more than 4,700 staff across 23 offices in 16 countries, we have the breadth and experience for your IT needs.
